# Scope of the Journal

ISSN: 1753-6715 (Print), ISSN: 1753-6723 (Online)

*IJMFA covers all aspects of managerial and financial accounting. The key difference between managerial and financial accounting is that managerial accounting information is aimed at helping managers within the organisation, while financial accounting is aimed at providing information to external parties. In today's advanced manufacturing environment, various issues arise for accounting standard-setting practicing professionals. Solving the separate issues of managerial and financial accounting is a significant challenge, and IJMFA assists researchers in overcoming these challenges in an efficient, effective manner.*
