Scope of the Journal

ISSN: 2635-1528 (Print), ISSN: 2635-1536 (Online)

Formerly the International Journal of Network Science.

IJNS publishes high-quality, peer-reviewed research contributions on the emerging science of networks and its ever-increasing applications. IJNS examines both theoretical and applied aspects of network science, covering (but not limited to) biological, ecological, neural, communication, social and economic, cognitive and semantic, technological, and computer networks, as well as various research approaches/paradigms of network science. IJNS welcomes submissions dealing with important practical problems such as the interpretation and prediction of reliability, security, survivability, stability and phase transitions of complex networks.

Topics covered include:

- Computer and telecommunication networks
- Swarm intelligence and bio-inspired networks
- Unmanned aerial vehicles and collective networks
- Smart, wireless and sensor networks
- Internet of Things and social networks
- Network data, abstraction, representation and visualisation
- Games on networks, evolutionary games on networks
- Graph-theoretic foundations of networks
- Dependence analysis and modelling
- Evolution of complex networks
- Network approaches to big data science
- Network reliability, security, survivability, stability and phase transitions
- Statistical theory of networks
- Temporal, dynamic, spatial and spatiotemporal networks
- Communication networks of organisms

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijns where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscienceonline.com or download an order form from www.inderscience.com/subform.

This title is part of the Science, Engineering and Technology Collection (see www.inderscience.com/set). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
