Scope of the Journal

ISSN: 1757-6342 (Print), ISSN: 1757-6350 (Online)

IJPSE addresses new process systems engineering methods, trends and technologies and applications in plant, process and product lifecycles, including engineering design and operational activities and their interaction. Coverage includes process engineering methods and computational models/simulation link design, operation, maintenance, recycling and other lifecycle activities in different disciplines, including nuclear, energy, power, chemical, pharmaceutical, discrete manufacturing and other production processes; applications in marine, military, transportation, aerospace, steel, mining, health/social systems; state-of-the-art methods, practices and technologies in chemical/mechanical/electrical/information/systems engineering; and energy/environmental sciences.

Topics covered include:

- Process/product synthesis, analysis, design
- Dynamic analysis/control using modelling/simulation
- Design methods for production process equipment
- Novel numerical methods, computation practices
- Process operations, risk management
- Safety/maintenance/reliability engineering
- Quality management, planning and scheduling
- Supply/production/demand chain management
- Integrated manufacturing processes/systems
- Intelligent control, design/operation support systems
- Biomass production processes
- Nano-production processes
- Sustainability/environmental issues
- Integrated control/management of industrial enterprises
- Lifecycle assessment/costing

Not sure if this title is the one for you?

Visit the journal homepage at www.inderscience.com/ijpse where you can:

- View sample articles in full text HTML or PDF format
- Sign up for our free table of contents new issue alerts via e-mail or RSS
- View editorial board details
- Find out about how to submit your papers
- Find out about subscription options, in print, online or as part of a journals collection

You can order online at www.inderscience.metapress.com or download an order form from www.inderscience.com/subform.

This title is part of the Science, Engineering and Technology Collection (see www.inderscience.com/set). For library collection subscriptions or for a free institutional online trial, please contact subs@inderscience.com.
