ISSN: 1742-6758 (Print), ISSN: 1742-6766 (Online)

*IJPSQ is an international scientific peer-reviewed journal that publishes original research findings addressing the use of sound for the design, fabrication, manufacture and assessment of engineering products. It provides a scientific platform for both academia and industry to disseminate their latest research results in all subjects and topics related to the sound issues of modern products. Full papers, communications and reviews are all welcome.*

## Contents

IJPSQ publishes original papers, review papers, case studies, book reviews, commentaries and news. Special issues devoted to important topics in product sound quality will occasionally be published. Commentaries on papers and reports published in IJPSQ are encouraged. Authors will have the opportunity to respond to commentary on their work before the entire treatment is published. Contributions may be by submission or invitation.

## Topics covered include:

- Psychoacoustics
- Jury evaluations
- Sound perception
- Sound metrics
- Simulation
- Modelling
- Design for sound quality
- Target setting
- Product applications
- Production line testing
- Brand management
- Measurement techniques and equipment
- Auralisation
- Response to vibration
