Scope of the Journal

ISSN: 1757-2177 (Print), ISSN: 1757-2185 (Online)

IJQET fosters the exchange and dissemination of research publications aimed at the latest developments in all areas of quality engineering. The thrust of this international journal is to publish original full-length articles on experimental and theoretical basic research with scholarly rigour. IJQET particularly welcomes those emerging methodologies and techniques in concise and quantitative expressions of the theoretical and practical engineering and science disciplines.

Contents:

IJQET publishes original papers, commentaries, and technical reports. Critical review and tutorial papers are also acceptable if they are written in a style suitable for practicing engineering and science. For a special issue devoted to specific sub-field of quality engineering and technology, authors are encouraged to contact the Editor-in-Chief.

Topics covered include:

- Data analysis
- Data mining applications
- Data quality and integrity
- Design of experiments
- Fault diagnosis, gauge/measurement system capability
- Product and process optimisation
- Product performance assessment
- Process robustness studies
- Quality by design
- Quality cost measurements, improvement techniques
- Quality in healthcare
- Robust parameter design
- Statistical process control, process monitoring
- Test and evaluation techniques
- Tolerance design and optimisation
