for more information and sample articles

Scope of the Journal

ISSN: 2052-0336 (Print), ISSN: 2052-0344 (Online)

The Latin America region has experienced rapid industrial, political and economic change over the past few decades. The challenges for managers and researchers from the Latin America area are often different to those experienced in other parts of the world. Considering that the major challenge for Latin America is to contribute to a more sustainable world, LAJMSD offers an international forum for a better understanding of the state-of-the-art and best practices of management focusing on sustainable development in Latin American organisations.

Topics covered include:

- Environmental, social and corporate sustainability, CSR
- Challenges and opportunities of triple bottom line
- Human resource management
- Research and development (R&D)
- Operations management
- Manufacturing
- Finance
- Managing science and technology
- Best practices and tools
- Comparative studies
- Management
- change management
- Organisational learning and learning from others regions of the world
- Energy, water, recycling and waste management
- Emerging issues
