About Inderscience Publishers

We are an independent company with over 35 years' publishing experience, offering over 420 high quality peer-reviewed international journals in wide-ranging disciplines including science, engineering and technology; environment and sustainability; health and biosciences; computing; economics; and management. We pride ourselves on providing a framework for authors to publish in new areas. Our cross-disciplinary approach, international editorial boards and list of contributors make us a pioneering publisher that aims to foster and promote innovative thinking.

Linking centres of excellence worldwide

The Education, Knowledge & Learning Collection

The collection features over 30 journals and includes coverage of the changing face of education, from economics and development to social media and technology enhanced learning. In addition, it includes a number of titles in knowledge engineering along with knowledge management in general and issues of learning in both education and organisations.

To find out more about each title on this list, please visit www.inderscience.com/ekl
