About Inderscience Publishers

We are an independent company with over 35 years' publishing experience, offering over 420 high-quality peer-reviewed international journals in wide-ranging disciplines including science, engineering and technology; environment and sustainability; health and biosciences; computing; economics; and management. We pride ourselves on providing a framework for authors to publish in new areas. Our cross-disciplinary approach, international editorial boards and list of contributors make us a pioneering publisher that aims to foster and promote innovative thinking.

Linking centres of excellence worldwide

*Please note that some titles may appear in more than one collection; however, all quotations will be based on de-duplicated selections. A number of new titles will launch in 2021. An up-to-date listing of available titles and issues can be found in our online journals catalogue at www.inderscience.com/catalogue.

Subscription Options and Further Information

A complete price list for the individual purchase of our titles can be found at www.inderscience.com/prices

A subscription to the Inderscience Publishers’ Full Online Journal Collection, a pre-selected subject collection or a customised collection can provide extensive discounts on the title list price, depending on the number of titles chosen.

To request a quotation, to set up a FREE institutional online trial or for further information about our licensing options, please email subs@inderscience.com.

All Inderscience titles offer both traditional and open access publishing options for authors. Please email subs@inderscience.com if you or members of your organisation are interested in discussing institutional payment models for article processing charges (APCs).
