

About Inderscience Publishers

We are an independent company with over 35 years' publishing experience, offering over 420 high-quality peer-reviewed international journals in wide-ranging disciplines including science, engineering and technology; environment and sustainability; health and biosciences; computing; economics; and management. We pride ourselves on providing a framework for authors to publish in new areas. Our cross-disciplinary approach, international editorial boards and list of contributors make us a pioneering publisher that aims to foster and promote innovative thinking.

Linking centres of excellence worldwide

The Public Policy and Administration Journals Collection

The Public Policy and Administration Collection features 27 titles. Along with coverage of the public sector in general, including e-government, e-democracy, e-governance, public policy, and public sector performance management, the list also includes the public sector in relation to human rights and constitutional studies, diplomacy and economy, happiness and development, migration and border studies, and public law and policy. Public services are also featured in a number of titles including those with reference to healthcare technology and management, and services, economics and management.

To find out more about each title on this list*, please visit www.inderscience.com/ppa
